GENERAL FEATURES

From now on, the new range of Candy washing machines allow to **reduce 80% of creases and save ironing time**, thanks to the "easy iron" function, which adjusts the spin cycle and the movement of the drum at the end of the cycle. **The gentle steam action relaxes garments halving creases. The items you love, will be ready in less time.**

EASY IRON

The Easy Iron function is now available also on some models of Candy Smart range

We all know how important it is to **reduce energy consumption**. Some Candy washing machines, with their cutting-edge inverter motor combined with Speed Wash System technology, they are able to achieve the highest energy efficiency class on the market.

ENERGY SAVING

The start-delay means your **laundry will be ready just when you want it**. You can programme the start of the washing cycle with a maximum delay of **24 hours**. No more worrying about unpleasant odours created by wet laundry that has been left inside the machine. No more wasting of the energy by setting the laundry to start when the electricity is more price-effective.

START DELAY

When it comes to wash cycles, one size doesn't fit all. Whatever your cleaning needs might be, your Candy machine can take care of them. Simply select the most appropriate from the three levels to make sure that **your clothes come out clean without wasting water or electricity**.

ADJUSTABLE CLEANING STRENGTH

Want to avoid having to set the same programme every time you run the machine? Our simply-Fi models allow you to **save your settings** with the Memory or My Favourite function.

MEMORY FUNCTION

Our machines **minimise the amount of electricity used, reducing waste**. The sensitive weight sensors detect the size of the load and automatically adjust the amount of water and electricity used. With our machines, a half-load can require up to 70% less water, time and electricity!

KG DETECTOR

Programmes

The perfect cycle for you, every time.

The best combination of time and performance. Candy washing machines allow you to choose between no fewer than **four cycles that are less than one hour long** yet 100% effective.

RAPID 14', 30', 44', 59' MINUTES

A cycle that uses the Mix Power System+ function to **remove stubborn dirt from cotton garments at only 60°C**. For this cycle the machine should not be loaded to more than 2/3 of its capacity.

HYGIENE 60

Use the Candy simply-Fi App to discover a specific cycle for your little ones that **sterilises all your baby clothes** at only 60°C thanks to enzymes activated by the initial water jet. The rinse cycle eliminates all traces of detergent **helping to protect your baby's sensitive skin**.

BABY

A **special cycle for delicate garments**, with gentle pulsing movements of the drum that simulate a hand wash. (Garments must be marked machine washable).

HAND WASH & SILK

A cycle for particularly delicate fabrics. It is punctuated with pauses, using a greater quantity of water to dissolve the detergent and prevent it from acting aggressively on the fabric

DELICATES

This programme can clean normally soiled cotton laundry, labelled washable at 40°C or 60°C, together in the same cycle.

ECO 40°-60° C

A series of slow, delicate movements to **keep your clothes fresh and uncreased** after the washing cycle has finished. Available on Smart Fi+ models, you can activate this function through **simply-Fi App**.

REFRESH TOUCH

RapidÓ

Get the most effective rapid wash, in less than 1 hour. To get quick, effortless results, you no longer need to pre-wash by applying the detergent directly to your garments.

This revolutionary technology sprays a concentrated mix of clean water and detergent on the garments, boosting the stain removal action in a shorter time, even with large washing loads.

QUICK&CLEAN TECHNOLOGY

RapidÓ is powered by the new Speed-Drive Inverter, an innovative technology that can **increase the machine's cleaning action by up to 50%***.

SPEED-DRIVE INVERTER

* Compared to a standard universal AC motor

With Candy RapidÓ you don't have to choose between saving time or perfect laundry results. Thanks to its **Speed Drive Motor** the cleaning action is boosted by up to 50%* guaranteeing the **best ever quick cycle results**.

9 RAPID CYCLES

*compared to traditional motors

Are you ready for a new laundry experience? With the new Candy RapidÓ, you can find out which is the best cycle according to amount, type and colour of your laundry **just by taking a snap of your garments**. The smartest way to save time and protect fabrics giving you the **best washing results**.

SNAP & WASH FUNCTION

RapidÓ is equipped with a Wi-Fi connectivity system to improve your experience with **washing tips** and **support in your own language**. Talk with RapidÓ to get answers about **ideal washing methods**, stain removal and a lot more. Do it remotely via the simply-Fi App or use smart speakers (Alexa and Google Home) when you're at home.

MULTI CHANNEL VOICE CONTROL

Talking Candy is available in these following languages: IT/EN/ES/FR/DE/RU

The special **Smart Ring 11° inclination** allows you to interact with the washing machine without bending your back. **Bigger and higher**, the **window glass** responds to the same need.

ERGONOMIC USAGE

Capable to wash perfectly in 39 minutes.

SUPER FAST TECHNOLOGY

The Heat Pump System ensures very low energy consumption, and enables you to use the dryer **at the same time** as the washing machine or other appliances. In fact the power absorbed is only 0,7kw/h, just 1/3 of a traditional condenser dryer. This is possible thanks to a closed working circuit that avoids dissipating the heating by working with lower **temperatures**.

MINIMUM CONSUMPTION TO USING APPLIANCES TOGETHER

Candy Dryers guarantee the maximum efficiency, reducing energy consumption by up to 75%, so you can enjoy your clothes, your time and your money.

INVERTER HEAT PUMP SYSTEM

The special **weight and drying sensors** can weigh the load and automatically stop the cycle at the desired drying level so you can **save energy, time and money**. This makes possible to dry from 1 kg up to the maximum load without any waste and assuring total protection.

KG DETECTOR

APPAREL CARE

Thanks to the special movement of the drum and its accurate temperature control, the Dryer knows how to **dry wool and delicate fabrics without any risk** of pilling and distortion, maintaining their natural softness.

WOOLMARK APPROVED

This **unique technology** allows drying at lower temperatures to **protect your fabric** from damage. Also **reduces** the **temperature** inside the drum and in-turn **reducing the energy usage by almost 30%**.

5 mtr Length, 7.5 mtr Working radius
TELESCOPIC EXTENSION PIPES
Voltage: 220-240V , 50Hz

Color - Java Blue & Pure White
/Smokey Grey translucent

SINGLE CYCLONE TECHNOLOGY
The optimized airflow and the high dust separation grade allow low cleaner maintenance.

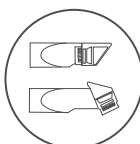

WASHABLE HEPA FILTER
Equipped with Hepa filter it guarantees optimum air filtration.

EASY EMPTY SYSTEM
A convenient and hygienic mechanism makes the bin emptying operation easy, impeding any contact with the dust.

LARGE BIN CAPACITY 1.5 LTR
The large bin capacity, avoiding frequent emptying, makes it ideal for busy homes.

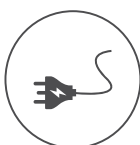

ACCESSORIES
Carpet and Floor Nozzle, Parquet + 2 in 1 Dusting Brush/Crevice tool

ALL FLOORS CLEANING

MAXIMUM POWER

OUR HISTORY

Always alert to changing history, Candy now celebrates **70 years of impressive success** built on our philosophy and by listening to the people we love: you.

Thanks to our Italian roots, we combine **design skills with the creativity** that has always been part of our culture and our domestic appliances always live up to expectations.

It was 1945 when the first all-Italian washing machine was produced: a Candy.

Since then, we've become an intrinsic part of family life by simplifying the way we carry out day-to-day domestic chores. Over time, **our range has expanded to include all kitchen appliances**: ovens, hobs, cooker hoods, fridges and dishwashers. Here at Candy, we are passionate about developing **unique, innovative products** and exploring untapped areas.

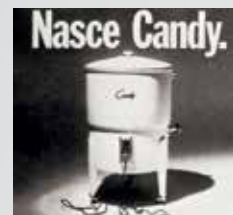

A story that never stops innovating.

Candy's adventure started in **1945** and, more than 70 years later, we are still adding new chapters. In 2014 Candy developed "**simply-Fi**", **the first complete range of Wi-Fi appliances** that can also be managed remotely via a **dedicated App**.
